The History of Central State University

Central State University's history begins with our parent institution Wilberforce University, named in honor of the great abolitionist William Wilberforce. Established at Tawawa Springs, Ohio, in 1856, it is affiliated with the African Methodist Episcopal (A.M.E.) Church and is one of the oldest Black-administered institutions of higher education in the nation.

In 1887, the Ohio General Assembly enacted legislation that created a Combined Normal and Industrial Department at Wilberforce University. The objectives of this new state-sponsored department were to provide teacher training and vocational education, and to stabilize these programs by assuring a financial base similar to that of other state-supported institutions.

The statute establishing the Combined Normal and Industrial Department declared that the institution was 'open to all applicants of good and moral character' thereby indicating no limitations as to race, color, sex, or creed. It was clear, however, that the Department and its successors were designed to serve the educational needs of African-American students.

Although this Department operated as part of Wilberforce University in most respects, a separate board of trustees was appointed to govern the state-financed operations. In 1941, the Department expanded from a two- to a four-year program, and in 1947, it legally split from Wilberforce, becoming the College of Education and Industrial Arts at Wilberforce. The name was changed in 1951 to Central State College, and in 1965, the institution achieved university status. The University has grown steadily since its founding. In recent years, the College of Science and Engineering was added along with the construction of a new academic building and four new residence halls. In Fall 2015, the University celebrated the grand opening of its Student Center.

In July 2012, Central State welcomed its eighth president, Dr. Cynthia Jackson-Hammond. Under this administration six compelling priorities for the University have been established: a quality academic experience; targeted student enrollment; improved retention rates; reduced time to degree; production of graduates with the knowledge, skills and dispositions for advanced studies and careers; and efficient and effective institutional operations.

New initiatives are in progress which include aggressive efforts to recruit college-ready students; increase student retention; enhancing the University's image internally and externally through the embodiment of the tenets, Service...Protocol...Civility®; diversification of the student body through focused recruitment of local and international students; development of more fluid articulation agreements with community colleges and cooperative agreements with area universities; improved communications with students, staff, and alumni; development of the University's 2014-2020 Strategic Plan; and the ongoing fusion of CSU's mission with the Land-Grant mission resulting from the University's federal designation in February, 2014.

As an 1890 Land-Grant Institution, Central State University is expanding Science, Technology, Engineering, Agriculture and Mathematics (STEAM) academic programming, research, education and extension services; developing partnerships within Ohio's agricultural industry; enhancing facilities; and engaging the local communities, all for the future growth and sustainability of the University. As a part of its expansion, the College of Education is creating a new School of Agriculture Education and Food Science and degree programs in Agriculture Education & Agriculture Extension along with Exercise Science. The College of Science and Engineering has added a new degree program in Sustainable Agriculture. Additionally, two new land purchases will house the future home of the CSU Regional Technical Resource Center and the CSU Botanical &

Vegetable Garden.

Central State University embraces change; but one thing that has not changed is its continuing commitment to providing an excellent, affordable education to residents of Ohio and beyond. Our future is *bright!*

1887- 2017
130 Years of Academic Excellence

Location

Central State University is located in Wilberforce, Ohio, four miles northeast of Xenia and 18 miles east of Dayton. The campus is midway between Cincinnati and Columbus on U.S. 42, about 55 miles from each city. Airline, bus and taxi services are available in Dayton.

From a single brick building erected in 1890, the Central State University campus has grown to a total of 42 principal structures despite the fact that on April 3, 1974, within minutes, more than half of the University facilities were destroyed by a tornado which struck the campus and nearby communities. Following the devastation, a campus plan was developed to create a new Central State University and return the campus to its natural beauty.

Today Central State University has facilities valued at around \$335 million, ranging from a power plant that has been named to The National Historic Register to the new University Student Center, which opened in Fall 2015.

Student life is centered around the residence hall complexes, the Student Center, and the Gymnasium which are used for a variety of co-curricular activities.

Purpose

The purpose of Central State University is to provide opportunities and educational attainment in higher education for the citizens of Ohio and other qualified applicants, including both national and international students.

University Mission

Central State University, an 1890 Land-Grant institution, prepares students with diverse backgrounds and experiences for leadership, research and service. The University fosters academic excellence within a nurturing environment and provides a strong liberal arts foundation leading to professional careers and advanced studies.

Central State University is dedicated to:

- Providing a culturally enriched learning environment by offering programs with multicultural and global perspectives;
- Stimulating intellectual curiosity for continuous search for knowledge;
- Teaching students to think critically and communicate effectively;
- Maintaining an environment of excellence through innovative teaching, service, and research;
- Developing an environment where students can aspire for excellence;
- Preparing students to address opportunities of a technologically oriented world;
- Serving populations from diverse backgrounds and experiences; and
- Collaborating with other educational institutions, business organizations and government agencies to enrich learning experiences and educational opportunities for students.

Revenues Generated, 2016-2017

The revenues generated by an academic program may come from several sources. One such source is the revenue generated based on the amount of credit hours taught during the two main semesters (fall and spring) of the academic year. Under this method, programs that teach “service course” courses, most certainly generated the majority of revenue for the University, and the Business Administration program generated the highest amount of revenue.

Seniors' Experiences

To allow the University to improve academic programs and the performance of its students, Central State University's Office of Institutional Research conducts a survey of senior students every year. This survey provides the University information on student's experiences, perception of academic services that support student performance, classroom instruction and faculty advising. The following are the results summarizing graduating senior experiences and satisfaction related to services supporting student academic performance, instruction and faculty advising.

<p>Level of satisfaction with education received</p> <table style="width: 100%; border-collapse: collapse;"> <tr> <td style="padding: 2px;">Very/Mildly satisfied</td> <td style="text-align: right; padding: 2px;">82%</td> </tr> <tr> <td style="padding: 2px;">Neutral</td> <td style="text-align: right; padding: 2px;">12</td> </tr> <tr> <td style="padding: 2px;">Very/Mildly unsatisfied</td> <td style="text-align: right; padding: 2px;">1</td> </tr> <tr> <td style="padding: 2px;">No Response</td> <td style="text-align: right; padding: 2px;">5</td> </tr> </table>	Very/Mildly satisfied	82%	Neutral	12	Very/Mildly unsatisfied	1	No Response	5	<p>Maximized my educational opportunities</p> <table style="width: 100%; border-collapse: collapse;"> <tr> <td style="padding: 2px;">Strongly/Mildly believe I did</td> <td style="text-align: right; padding: 2px;">81%</td> </tr> <tr> <td style="padding: 2px;">Neutral</td> <td style="text-align: right; padding: 2px;">10</td> </tr> <tr> <td style="padding: 2px;">Strongly/Mildly believe I did not</td> <td style="text-align: right; padding: 2px;">4</td> </tr> <tr> <td style="padding: 2px;">No Response</td> <td style="text-align: right; padding: 2px;">5</td> </tr> </table>	Strongly/Mildly believe I did	81%	Neutral	10	Strongly/Mildly believe I did not	4	No Response	5

Faculty Advising

The academic mission at Central State University includes teaching, research, and advising. For the full-time faculty member, she or he will have varying levels of emphasis on each of these endeavors based on discipline, number of available faculty advisors, number of students in the major and qualifications. While there is no “optimum” faculty advisor to student ratio, it is clear that some faculty were required to place more emphasis on advising duties than their peers at the University. The following ratios are based on all full-time faculty serving as advisors during Fall 2017 even though not all faculty members advise.
