

## Graduating Senior Survey Question related to Understanding Scientific Process

The following question is part of the Graduating Senior Survey, which is administered annually to graduating seniors in Spring. Please see below the responses to this question for Spring 2007.

**“Did your experience at CSU provide you with the understanding of the scientific process?”**

**32%** of the respondents in the 2007 survey reported that their experience at CSU had **strong positive** impact in providing them with the understanding of the scientific process.

**43%** of the respondents in the 2007 survey reported that their experience at CSU had **mild positive** impact in providing them with the understanding of the scientific process.

**19%** of the respondents in the 2007 survey reported that their experience at CSU had **no** impact in providing them with the understanding of the scientific process.

**4%** of the respondents in the 2007 survey reported that their experience at CSU had **mild negative** impact in providing them with the understanding of the scientific process.

**2%** of the respondents in the 2007 survey reported that their experience at CSU had **strong negative** impact in providing them with the understanding of the scientific process.
