May 7, 2020

Dear Student,

In April, Lt. Governor Husted launched Coronavirus.Ohio.gov/JobSearch, a central location to help connect Ohioans who are able and willing to work during the COVID-19 crisis with businesses that need to hire additional staff right now.

There are hundreds of businesses in Ohio that are providing important services during the global pandemic that have critical workforce needs, from the healthcare industry and manufacturers producing PPE to the food service industry. As a result, we need more Ohioans who can join the workforce.

We ask that you consider giving back to your community during this challenging time, if you are able and willing to work. These are great opportunities to help Team Ohio deliver the products and services people need. Visit Coronavirus.Ohio.gov/JobSearch to find an opportunity to work on the front lines near you.

Thank you for your consideration. We are all in this together!

Sincerely,

Randy Gardner
Chancellor
