2022 Research Symposium Series Featuring Dr. Sakthi Subburayalu

Monday, February 28, 2022

3-4 PM

JISCENS Auditorium

Central State University

WILBERFORCE, OH – Join Dr. Sakthi Kumaran Subburayalu, Researcher and Assistant Professor of Soil Science and Agronomy at Central State University as he discusses **Targeted Implementation of Agricultural Conservation Practices Using ACPF for Improved Soil Health and Water Quality**.

Dr. Sakthi, who was recently named 2021 Conservationist of the Year by the Warren County Soil and Water Conservation District, has a bachelor's degree in Agriculture and a Master's degree in soil science and agricultural chemistry. He has a PhD in soil science from The Ohio State University. Prior to his work at Central State University, he worked as a Research Scientist at OSU with projects in digital soil mapping, water quality and urban forestry. Presently, Dr. Subburayalu is a project lead for a soil health and water quality project in the Great and Little Miami watersheds in Ohio. His research interests include soil and water conservation, data science in digital agriculture, application of machine learning and remote sensing for precision agricultural management.

The Weekly Research Symposium Series is designed to provide an overview of various research projects taking place at Central State University. Each week will focus on a different topic. The Series begins Monday, February 28, 2022 and runs through May 2, 2022
