The History of Central State University

Central State University's history begins with our parent institution Wilberforce University, named in honor of the great abolitionist William Wilberforce. Established at Tawawa Springs, Ohio, in 1856, it is affiliated with the African Methodist Episcopal (A.M.E.) Church and is one of the oldest Black-administered institutions of higher education in the nation.

In 1887, the Ohio General Assembly enacted legislation that created a Combined Normal and Industrial Department at Wilberforce University. The objectives of this new state-sponsored department were to provide teacher training and vocational education and to stabilize these programs by assuring a financial base similar to that of other state-supported institutions.

The statute establishing the Combined Normal and Industrial Department declared that the institution was "open to all applicants of good and moral character," thereby indicating no limitations as to race, color, sex, or creed. It was clear, however, that the department and its successors were designed to serve the educational needs of African-American students.

Although this Combined Normal and Industrial Department operated as part of Wilberforce University in most respects, a separate board of trustees was appointed to govern the state-financed operations. In 1941, the department expanded from a two- to a four-year program, and in 1947, it legally split from Wilberforce, becoming the College of Education and Industrial Arts at Wilberforce. The name was changed in 1951 to Central State College, and in 1965, the institution achieved university status.

The University has grown steadily since its founding. There are four Colleges: Education; Engineering, Science, Technology, and Agriculture; Business; and Humanities, Arts, and Social Sciences. Additionally, new academic programs have been added along with a School of Agricultural Education and Food Science, an 85,000 sq. ft., University Student Center, and five residence halls. The most recent residence hall opened in fall 2019 and is the University's first 250-bed apartment-style facility. In summer 2020, the University celebrated the grand opening of the Botanical Garden, which will serve the campus and local communities by providing a space to engage in and observe the benefits of meditation and agricultural best practices.

Dr. Jack Thomas took office as the ninth president of Central State University on July 1, 2020, bringing decades of successful academic leadership.

President Thomas has laid out an ambitious agenda for his tenure as the ninth president at Central State University. The signature objectives of his presidency are as follows.

1. Continue to meet and enhance the 1890 Land-Grant mission
2. Increase enrollment (globally and in diversity)
3. Improve retention and graduation rates
4. Develop a marketing and rebranding campaign
5. Launch a multimillion-dollar capital campaign
6. Develop an Honors College to recruit high-achieving students
7. Increase degree offerings, offer graduate studies, and provide flexibility in course delivery
8. Build a new learning and living environment
9. Update the University strategic and master plans

As an 1890 Land-Grant Institution, Central State University is expanding Science, Technology, Engineering, Mathematics, and Agriculture (STEM-Ag) academic programming, research, and education; developing partnerships within Ohio's agricultural industry; enhancing facilities; and engaging local communities, all for the future growth and sustainability of the University.

Central State University embraces change, but one thing that has not changed is its continuing commitment to providing academic excellence for over 134 years, affordable education to residents of Ohio and beyond.

Innovation is in our DNA.

Location

Central State University is located in Wilberforce, Ohio, four miles northeast of Xenia and 18 miles east of Dayton. The campus is midway between Cincinnati and Columbus on U.S. 42, about 55 miles from each city. Airline, bus and taxi services are available in Dayton.

From a single brick building erected in 1890, the Central State University campus has grown to a total of 42 principal structures despite the fact that on April 3, 1974, within minutes, more than half of the University facilities were destroyed by a tornado which struck the campus and nearby communities. Following the devastation, a campus plan was developed to create a new Central State University and return the campus to its natural beauty.

Today Central State University has facilities valued at around \$335 million, ranging from a power plant that has been named to The National Historic Register to the new University Student Center, which opened in Fall 2015.

Student life is centered around the residence hall complexes, the Student Center, and the Gymnasium which are used for a variety of co-curricular activities.

Purpose

The purpose of Central State University is to provide opportunities and educational attainment in higher education for the citizens of Ohio and other qualified applicants, including both national and international students.

University Mission

Central State University, an 1890 Land-Grant institution, prepares students with diverse backgrounds and experiences for leadership, research and service. The University fosters academic excellence within a nurturing environment and provides a strong liberal arts foundation leading to professional careers and advanced studies.

Central State University is dedicated to:

- Providing a culturally enriched learning environment by offering programs with multicultural and global perspectives;
- Stimulating intellectual curiosity for continuous search for knowledge;
- Teaching students to think critically and communicate effectively;
- Maintaining an environment of excellence through innovative teaching, service, and research;
- Developing an environment where students can aspire for excellence;
- Preparing students to address opportunities of a technologically oriented world;
- Serving populations from diverse backgrounds and experiences; and
- Collaborating with other educational institutions, business organizations and government agencies to enrich learning experiences and educational opportunities for students.

Revenues Generated by Programs, 2020-2021

The revenues generated by an academic program may come from several sources. One such source is the revenue generated based on the amount of credit hours taught during the two main semesters (fall and spring) of the academic year. Under this method, programs that teach “service course” courses, most certainly generated the majority of revenue for the University, and English and Business Administration programs generated the highest amount of revenue.

Seniors' Experiences

To allow the University to improve academic programs and the performance of its students, Central State University's Office of Institutional Research conducts a survey of senior students every year. This survey provides the University information on student's experiences, perception of academic services that support student performance, classroom instruction and faculty advising. The following are the results summarizing graduating senior experiences and satisfaction related to services supporting student academic performance, instruction and faculty advising.

Faculty Advising

The academic mission at Central State University includes teaching, research, and advising. For the full-time faculty member, she or he will have varying levels of emphasis on each of these endeavors based on discipline, number of available faculty advisors, number of students in the major and qualifications. While there is no “optimum” faculty advisor to student ratio, it is clear that some faculty were required to place more emphasis on advising duties than their peers at the University. The following ratios are based on all full-time faculty serving as advisors during Fall 2021 even though not all faculty members advise.
