NEW BUSINESS

President’s Report. President Kuti stated that as discussed earlier this morning during the Student Success Committee meeting and financial briefing, the university is facing financial challenges that need to be addressed. The university has implemented an initiative to realign academic resources that focuses on student

success. The university leadership has been undergoing a data-informed analysis of all academic programs to determine which are sustainable, evaluate financial and compliance impacts of the Advance Ohio Higher Education Act (“SB1”) and reduce expenses in low-enrolled programs. Low-enrolled programs are defined by statute as producing fewer than 15 graduates over a three-year period, and a list of CSU programs was presented that fit this condition. In conducting further analysis, future enrollment for each of the programs was evaluated as well as the number of full-time faculty dedicated to each program. President Kuti presented options for action and criteria to address SB1 program eliminations. One of the criteria was to align programs to the mission of the university as an HBCU and land-grant university so that the decision was not made fully on financial criteria. As a business enterprise, institutional sustainability depends on the demand by students for programs. Another criterion was the academic quality of each program and the appeal to Ohio students. It was noted that Central State is a state public university and funded by the taxpayers of Ohio and a large portion of the university’s resources is funded from the state subsidy for instruction (“SSI”) which is based on graduation, retention and persistence rates. President Kuti noted that Ohio students are critical in order to meet the needs of the state. Lastly, academic programs were evaluated on the impact to operational flexibility. He presented trends of faculty and low enrolled majors for the academic years 2023, 2024 and 2025 and, using data driven analyses, the university has begun a realignment of academic programs and resources which is an exercise occurring across the country. President Kuti stated that the effort for realignment was not the reason for the university being put on fiscal watch, although, it was a contributing factor. Mitigating actions to support the university’s fiscal responsibility were covered including a 15% reduction in personnel.

In looking at a comprehensive picture of the university in light of financial challenges, accreditation will be affected. The Higher Learning Commission (“HLC”) was scheduled to visit campus in September but, at the university’s request because of the realignment, HLC has postponed the visit until April of 2027. In addition, President Kuti discussed the State of Ohio’s Senate Bill 6 (“SB6”) and Central State’s current financial net income. Currently, the university has over \$100 Million in deferred maintenance and infrastructure needs and the FY26 end-of-year forecast projects a cash deficit estimated at \$5 Million unless drastic and significant changes are made. According to President Kuti, the university has made progress in certain areas such as student accounts receivable. There have been town hall meetings since fiscal watch was instituted and to update the campus community on the water situation. In November, the university completed a quarterly performance evaluation and had approximately 85% participation of supervisors and employees.

In November of 2024, the university received preliminary results from a Title IV program review from the U.S. Department of Education (“US DOE”). At that time, the university was very close to being put on a stringent oversight level called “Heightened Cash Monitoring 2 (“HCM2”) and most institutions that receive this designation do not survive. Central State did not receive this designation because of the hard work of employees across campus and friends from the Ohio Department of Education. In January of 2026, the university received a response from US DOE that it was not placed on HCM2 status but may have to pay fines or return funds.

President Kuti stated that the Dayton area had a record snow fall and, with limited staff and resources, the campus came together and worked to remove the snow. He commended the staff, students and all of the volunteers for their efforts. Lastly, he stated that the university will participate in a trip to Washington DC in February to represent Central State as a land-grant institution and presented KPI’s for the Office of Sponsored Programs.

Operational Updates. Ms. Kathleen Maddedn, Director, Department of Administrative Services (“DAS”) stated that during the Budget and Finance Committee meeting, several operational and programmatic work projects were discussed in the areas of facilities, infrastructure, finance, administration, and information technology. She commented that it has been a privilege to meet all the leaders of these

divisions and DAS will continue to work closely with them over the coming months to ensure Central State's financial stability.

Committee Reports. Trustee Anderson, chair, Budget and Finance Committee, stated that the committee had a very productive discussion this morning and it was good to hear that the entire university is coming together to address the financial situation. Trustee Gamblin noted that the full board had an opportunity to participate in the Budget and Finance Committee meeting, and the committee reiterated the importance of Central State's financial position, in particular its cash flow and accounts payable.

Trustee Matthews, chair, Student Success Committee, stated that Dr. Hobbs and AD Brown have been doing exceptional work. The committee reviewed the spring 2026 enrollment. The overall enrollment is down slightly; however, the traditional student enrollment is up, which is the first increase in enrollment since Dr. Kuti started in 2024. The unofficial persistence rate is 73% for new, first-time freshmen and 81% overall for traditional students and there are 1,210 students in housing. The committee reviewed the curricular approval process and progress towards goals and events within the academic colleges, Enrollment Management and Student Affairs. For athletics, student GPA is 3.01, the Walker Gymnasium renovations have been completed, and the department is exploring the addition of two new programs, women's soccer and flag football. Trustee Gamblin asked Dr. Hobbs to present details of a comparison of year-to-year enrollment and Key Performance Indicators ("KPI's").

Trustee Harris, chair, Governance Committee, stated that a discussion of Senate Bill 1 ("SB1") took place. There are approximately 15 mandates in SB1 and a chart will be uploaded to the Board's portal for tracking purposes. She noted that the university is in compliance and on schedule with all outstanding mandates, and there will be resolutions coming before the Board today regarding retrenchment, curriculum changes and new degree programs. The auditor's recommendations relating to the Board were discussed. There is a larger number relative to the university as a whole, but 23 are specific and require Board action. The committee will be working with general counsel to make sure these are completed in a timely manner.

The committee discussed the following two topics, a change to the Board's executive committee and the selection of advisory trustees. A discussion is planned with general counsel to address both topics. In addition, there are some inconsistencies in the Board's Code of Regulations around the Board expansion that need to be addressed, and resolutions will be coming before the Board at the next regular meeting. Trustee Gamblin thanked Trustee Harris for especially keeping the trustees apprised of updates to the state auditor's compliance requirements for the Board.

PRESENTATION AND DISCUSSION OF RESOLUTIONS

Ms. Whatley read the following resolutions aloud and noted that these are available in full text on the Board's TEAMS portal.

Ms. Whatley stated that Resolution 2026-03 is for approval of agreements with the City of Xenia. Central State has been in discussions with the City of Xenia about a Type IV annexation and has agreed to a 90-day extension which will allow the university to continue to purchase water as an extraterritorial customer which requires Central State to pay the same rate that is paid by residents, plus a 50% surcharge. Trustee Manns moved to approve Resolution 2026-03 "Approval of the Agreements with the City Of Xenia, Ohio" and the motion was seconded by Trustee Matthews. The Curriculum Approval Process

1. Curriculum changes may include: new courses, course deletions, course changes in credit hour, title, number, description and other requirements as per the academic departments and colleges, major program modifications, new programs, and program discontinuations as defined in 2.7.5.3.1 of the Central State University Faculty Handbook.
2. The Committee on Academic Policy within the University Senate has the authority to review curriculum change recommendations forwarded to it by the Colleges of the University in accordance with 2.7.5.3 of the Central State University Faculty Handbook.
3. The request for curricular changes may be initiated by the department faculty. All requests are reviewed and recommended as described in 2.7.5.3.2 of the Central State University Faculty Handbook .
4. The University Senate may provide advice, feedback, and recommendation on the establishment and modification of academic programs, curricula, courses, general education requirements, and degree programs. Once the University Senate recommends a curricular change, the Provost and Vice President for Academic Affairs and University President will review and make their recommendations to the Board of Trustees.
 - a. All feedback and recommendations by the University Senate are advisory in nature.
 - b. All curricular changes must be submitted on the Academic Program Request form.
5. The Central State University Board of Trustees has the final, overriding authority to approve or reject any establishment or modification of academic programs, curricula, courses, general education requirements, and degree programs.
6. Only approved curricular changes will be compiled in the University Catalog by the University Registrar.
7. This process shall be reviewed and updated every five years from the date of adoption.
